

## **Mid Canterbury Tennis Charitable Trust 2019 Annual report**

It has been another busy year on the tennis courts.

Currently we have two businesses quoting to replace our existing court lighting with LED. Proceeding with this would future proof our lighting for the next twenty years, however this decision is dependent on funding.

Additional outdoor furniture was purchased to replace the last of the original tables and seats.

The courts are in good condition therefore it was decided not to resurface any this year.

A new court sponsor, Rosco Auto Dismantlers was found to replace Stirling Sports.

A hand rail was installed on the steps close to the gate entry. A larger fan with thermostatic control was installed in the bar area to hopefully stop this area from over heating.

Thank you to the trustees, David Bishop, Gary Casey, Cynthia Christie, Gretchen Hart, Neil McCann and to our secretary Katherine McDonnell for their significant contribution throughout the year.

Thanks also to John Speedy for his efforts in keeping the complex tidy.

Our thoughts are with Andre, Debbie and family as they face the challenges ahead.
